

One test unit for free for your field report* - Welcome to the Hilscher Gateway autumn campaign 2010

Dear Mr. Doe,

Hilscher Gateways connect quickly and reliably two different industrial networks whether Fieldbus, Real-Time-Ethernet or serial protocols.

Convince yourself of the user-friendliness without any costs or obligations by ordering one test device from the Gateway product line listed below. If you provide Hilscher your field report after testing, you can even keep the Gateway free of charge.

Take advantage of this one-time offer and order your test device as long as supplies last:

www.gateway.hilscher.com

netTAP 100 – Gateway without Limits

- Avoid connection barriers with many potential protocol combinations:
 - o Fieldbus to Fieldbus / Real-Time-Ethernet
 - o Serial to Fieldbus / Real-Time-Ethernet
- Convert own serial protocols with netSCRIPT
- Minimize installation errors, copy configuration and project data easily to other netTAP 100 via memory card

[Download data sheet](#)

netTAP 50 – The Low-cost Gateway

- Suitable for simple conversions
 - o Slave <> Slave or Master <> 1 Slave
- Many protocol combinations available
 - o Serial <> Fieldbus
 - o Serial <> Ethernet (1-Port)
 - o Ethernet (1-Port) <> Fieldbus
- Excellent price-performance-ratio thanks to compact and cost-optimized design

netLINK PROXY – The PROFINET to PROFIBUS linking plug

- Integrates a single PROFIBUS-DP Slave into the PROFINET network
- For direct mounting on the PROFIBUS-DP interface
- Protect investments by integrating existing PROFIBUS devices in modernized PROFINET facilities
